

Enterprise Resource Planning

Your unique problems.
Our uncommon solutions.

Today's complex ERP systems — where Oracle Cloud ERP and Cloud HCM are the undisputed front-runners — require a partner with a successful track record of combining product knowledge with industry best practices to deliver business differentiators.

Providing specialized Oracle ERP implementation services was the premise for AST's establishment in 1995, and we remain true to that founding vision to this day.

Our track record of consistent, high quality delivery of Oracle E-Business Suite, Cloud ERP, Cloud HCM, and Planning and Budgeting Cloud Service projects has earned us such accolades as Oracle Excellence Award, Oracle Platinum Partner, Oracle Specialized Partner, Oracle BI Pillar Partner, and *Inc. Magazine's* Best Places to Work award.

Specialized. Recognized. Preferred.

When you partner with AST, you can count on:

- A team of full-time employees that will hit the ground running.
- Seasoned staff that knows your industry's leading practices.
- Executive commitment and involvement with your project.
- Our proven Enterprise Domain Methodology, created from the ground up for ERP projects.
- Effective training and thorough knowledge transfer.

If you want your company to realize the full benefits from Oracle E-Business Suite and have a successful implementation, reach out to us for more information.

Assessment & Strategy

Our strategy and assessment services help you evaluate your business and technology needs to create a project roadmap and reduce risk.

Best Practices

Improve your efficiencies and competitive advantage with a partner that understands your industry and business processes.

Implementation

A track record of 100% success on projects and an Oracle E-Business Suite Specialized Platinum Partner.

Upgrade

We assess current functionality, integrate with your business processes, evaluate customizations, and minimize downtime.

Integration

Integration that is data-centric, process-centric, and event-driven. We perform integrations through native interfaces and are deeply experienced with integrations through SOA web services.

AST Corporation is an Oracle PartnerNetwork Platinum Partner, an Oracle Pillar Partner, and three-time recipient of the Oracle Excellence Award.
