

# Education Services

## Expert and certified training for your Oracle Applications.

AST has been a premium Oracle University Education partner since 2004. One of the leading advantages as an Oracle University Partner is our real-world application knowledge and long and close relationship with Oracle. We have a diverse selection of education offerings that can fit your training needs. We can manage your training programs and assist in developing your training plan and change management initiatives.

Whether your need is education services as part of your implementation plan or standalone training services, AST will develop and deliver a first-class training strategy. Our high-quality instructors possess practical project experience that will help your staff learn the most useful and up-to-date technologies and processes.

## Specialized. Recognized. Preferred.

If you require standalone training services or need to complement your existing training plan with Oracle University product offerings, talk with one of our education sales representatives to discuss your training needs combined with our Oracle Education Reseller services. Together, we can build the right training strategy for your company, complemented with a mixture of Oracle University's diverse product offerings.

For more information on AST's Education Services, contact one of our education sales representatives at 888-278-0002 or send an e-mail to [info@astcorporation.com](mailto:info@astcorporation.com).
