Product Expertise

- Oracle Business Intelligence Applications (BI Apps)
- Oracle Business Intelligence Foundation Suite (OBIFS)
- Oracle BI Cloud Service (BICS)
- AST Grants Analytics
- AST Transit Analytics

Supporting today's complex analytics applications can be cumbersome. Many of our customers experience issues such as:

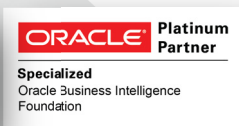

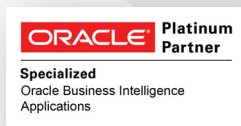

- Reporting products provide less intelligence than expected
- Data warehouses become out-of-sync with the business system
- Difficulty finding expertise in both source business systems and data warehouses
- Maintaining multiple integrations is expensive and onerous

AST has experience solving these issues, and more. We offer value through:

- Flexible options to fit your budget and service-level requirements
- Experience with BI product support, upgrades and conversions
- Demonstrated, critical industry knowledge as a BI Pillar Partner
- Oracle Certification in the complete range of Oracle BI products

Specialized. Recognized. Preferred.

AST is a recognized, go-to partner and is highly regarded as a Business Intelligence (BI) and Data Warehousing (DW) solutions firm. Our reputation is built on years of experience with developing BI roadmaps and implementing both custom and commercial-off-the-shelf (COTS) solutions. In addition to BI, our resources have excellent credentials across the Oracle solution set, including ERP, EPM and CRM applications. We provide our clients with a one-stop shop for complete expertise from data gathering to Intelligent Analytics.

AST Corporation is an Oracle PartnerNetwork Platinum Partner, an Oracle Pillar Partner, and three-time recipient of the Oracle Excellence Award.
