Customer Testimonials

"We have you and your staff to thank for the professionalism and commitment in successfully completing this critical project"

CFO, Port of Los Angeles

"AST came in with vast knowledge of the system and was willing and able to implement even more functionality here. AST was dedicated to ensuring that Lake County was getting all of the functionality that we wanted/needed out of the system. The team's patience and commitment were crucial to this project's success."

Deputy Finance Director,
Lake County

Are your efforts to maintain and support your Hyperion system limiting the return on your investment? Is keeping your staff up-to-date with Hyperion technology proving to be expensive?

Many organizations are turning to AST to harness the full potential of their Hyperion Enterprise Performance Management (EPM) Systems. Our customers have long benefitted from our cost-effective support models, which enable them to focus on strategic projects.

Our team of experienced Hyperion consultants provides the best support services for Hyperion solutions, including:

- Technical expertise with interfaces and dash-boarding
- Infrastructure/DBA support for full sizing, installation preparation, and performance evaluation on targeted platforms
- Unique multi-dimensional database experience with Essbase
- Knowledge of Calc Scripts used to troubleshoot Business Rules
- Hyperion Financial Reporting and SmartView support for ad hoc analysis and other user functions
- Oracle Data Integrator (ODI) debugging and integration

Specialized. Recognized. Preferred.

AST has been effectively and proactively managing Oracle systems since 2002. Our resources are experienced, professional and Oracle-Certified. As an Oracle Platinum Partner, we can provide access to Oracle development and product information to the benefit of our clients. Our flexible Service Level Agreements (SLA) and Support Models are tailored to your organization and maximize the value of our offerings.

AST Corporation is an Oracle PartnerNetwork Platinum Partner, an Oracle Pillar Partner, and three-time recipient of the Oracle Excellence Award.
