

# Middleware

Experts in on-premise, private/  
public cloud, and hybrid solutions.

As an Oracle Platinum Partner, we are true experts in the Oracle Fusion Middleware stack. Your organization will benefit from our deep experience and proven success with integration, security and engagement. If you dream of building a genuine digital business platform, we can help turn your vision into reality. Our solutions include on-premise, private cloud, Oracle public cloud, and hybrid solutions.

At AST, we're proud of our successes with:

- Integration projects using Oracle SOA and BPM
- Security implementations using the Oracle Identity Management platform
- Customer engagement projects using Oracle WebCenter

By partnering with AST, our customers gain significant agility and organizational efficiency, while taking full advantage of today's Cloud environments. We help our customers meet the growing demands of a mobile user-base with expectations of connectivity to enterprise applications 24x7x365.

## Specialized. Recognized. Preferred.

AST's SOA Middleware Team has twice received Oracle's Excellence Award (2013, 2011) for developing and implementing innovative middleware solutions. Our staff is comprised of full-time, Oracle-certified employees. With AST as your partner, you can be assured of success with your mission-critical Middleware project.
