Oracle Application Testing Suite

Accelerate Testing Cycles and Maximize ROI for Oracle Projects

Benefits

- 60-80% reduction in regression testing times
- Earlier detection of critical defects
- Faster time to market
- Highest quality deployments
- Reduced production downtime
- Efficient utilization of resources
- Maximum ROI
- Increased testing coverage
- Detailed audit trail for compliance

OATS Test Automation Services

- Functional Testing
- Performance & Load Testing
- Test Process Management
- Regression Testing Planning & Execution
- Detailed Failure Analysis
- Defects Tracking & Reporting
- Test Data Management
- Automated Scripts Maintenance
- Modular, Reusable Script Design

Is your organization implementing a new Oracle solution, upgrading an existing deployment, or spending significant time doing manual regression testing against patches and fixes? If the answer is “yes” to any of the above questions, AST can help streamline these efforts with automated testing services using Oracle’s Application Testing Suite of products.

Our certified consultants ensure your team will achieve significant savings in testing timeframes and associated costs. Most AST customers realize ROI from their test-automation investment within their first project!

AST works closely with your team to design and execute an effective test automation strategy that ensures quality, scalability, and availability of Oracle Web and Packaged applications, SOA Web Services, and Oracle Databases.

Based on your specific needs, we customize and implement any of Oracle’s tightly-integrated Application Testing Suite products:

- **Oracle Functional Testing (OFT)** for automated functional and regression testing
- **Oracle Load Testing (OLT)** for scalability, performance, and load testing
- **Oracle Test Manager (OTM)** for test process management, including test requirements management, test management, test execution, and defect tracking

Specialized. Recognized. Preferred.

OATS Accelerators

AST’s Test Automation Services include a series of integrated testing accelerator solutions for Oracle EBS, Siebel CRM, and SOA Web Services-based applications. These accelerators enable enhanced scripting capabilities for more efficient and optimized testing of complicated, mission-critical business processes and transactions.

AST Corporation is an Oracle PartnerNetwork Platinum Partner, an Oracle Pillar Partner, and three-time recipient of the Oracle Excellence Award.
