# Integration

## Connect on-premise, PaaS, and SaaS with confidence!

As an Oracle SOA Pillar Partner with an award-winning SOA practice, AST Corporation has deep experience integrating on-premise, remotely hosted, and SaaS systems. Your organization can have full confidence in our ability to securely integrate your enterprise systems and create an optimal digital platform for mobile solutions.

We are focused on providing solutions and services for enterprise applications and business process automation for the public sector, public transit, utility, education, commercial and healthcare industry verticals with various service types supported.

**Application to Application Integration:** Enterprise application integrations.

**Business Process Optimization:** Automation using Oracle BPM Suite and SOA Suite.

**Cloud Enablement:** Enterprise adoption for SaaS/PaaS, SaaS to on-premises integration.

**Mobile Enablement:** Enterprise adoption for a mobile strategy.

## Specialized. Recognized. Preferred.

We have enabled our customers to quickly deploy enterprise infrastructure platforms that are readily adaptable to their evolving business needs, including the next generation of cloud and mobile applications.

AST has a 100% successful track record of delivering quality projects, and we are recognized as Oracle's go-to partner for Fusion Middleware solutions. We offer a team comprised of full-time, Oracle-certified employees. With AST as your partner, you can be assured of success with your mission-critical SOA project.
