AST Cloud Connect

Adopt Oracle Fusion Cloud now.

Key Benefits

- Accelerate Cloud and On-premise integration
- Reduce implementation time and cost
- Reduce custom development
- Integrate using a pre-built proven solution
- Configuration, instead of customization

Solution Highlights

- Based on Oracle SOA Suite 12c
- Supports Oracle:
 - HCM Cloud
 - Sales Cloud
 - Financial Cloud
 - SCM Cloud
 - Procurement Cloud
 - Projects Cloud
- Fully customizable
- Deployable in High-Availability (HA) configurations
- Managed Support for easy transition and maintenance

AST Cloud Connect is a fully-configurable integration accelerator that provides pre-built interfaces for Oracle Fusion Cloud with both legacy (on-premises) and cloud SaaS solutions. AST Cloud Connect comes pre-built with all the features needed to integrate with a variety of SaaS solutions. Through a web-based GUI, an administrator defines the complete integration flow, including:

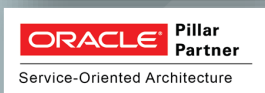

- Data Validation Rules
- Data De-duplication Rules
- Mappings and Transformations
- Search for Individual Messages and Transactions
- Pre & Post-processes

All interface transactions are fully logged and are tracked using runtime dashboards that show the status of the overall system, including drill-downs.

Specialized. Recognized. Preferred.

AST Cloud Connect reduces Fusion Cloud integration time from weeks to just days, enabling increased ROI and including features such as:

- 60+ pre-defined integrations across Cloud HCM, Financials, SCM, Procurement, and Projects
- Rapid adoption and mapping to existing systems
- Transaction Retry Rules and integrated handling of business exceptions
- Runtime monitoring, detailed notifications, system status, and reports
- Reduced service deployment and maintenance costs

AST Corporation is an Oracle PartnerNetwork Platinum Partner, an Oracle Pillar Partner, and three-time recipient of the Oracle Excellence Award.
